Hi All,

Attached are resources for current citrus management practices in FL and TX & a 2014 paper with comparisons of Aldicarb to other soil-applied insecticides for management of Asian citrus psyllid. Rebecca and I have found other resources for ACP biology & prior studies on Aldicarb for managing ACP and can send those along if desired, but we thought these three were good to keep in mind & review for what we need on this project right now.

Best,
Jeana
